

Annual Notification to Parents Regarding Confidentiality of Student Education Records and School Dir

Confidentiality of education records is a right of public school students and their parents. This right is provided for by two federal laws, the Individuals with Disabilities Education Act (IDEA), and the Family Educational Rights and Privacy Act (FERPA). Under these laws, "education records" means those records that are: (1) directly related to a student; and (2) maintained by an educational agency or institution or by a party acting for the agency or institution. Of course, education records are maintained on every child enrolled in a public school. The types of information gathered and maintained includes but is not limited to: the student's and parents' names, address and telephone number; the student's date and place of birth, date of enrollment in the school, records from previous schools attended, attendance record, subjects taken, grades, school activities, assessment results, number of credits earned, immunization records, disciplinary records, if any, correspondence from parents, and child find and other screening results, including hearing and vision screening results.

The above paragraph is only a partial listing of the confidential nature of student education record and school directory information. This document is on file at the school in its entirety. FERPA Website.
